

Lesson 1 Homework Practice

Area of Parallelograms

Find the area of each parallelogram.

21 units²

25 units²

99 in²

32 ft²

50 2/3 yd²

1,476.57 m²

Find the area of the shaded region in each figure.

480 mm²

161 in²

9. Find the base of a parallelogram with height $6\frac{5}{8}$ feet and area $26\frac{1}{2}$ square feet. **4 ft**

10. Find the height of a parallelogram with base 9.44 meters and area 70.8 square meters. **7.5 m**

11. **FLAGS** Find the area of the shaded region of the flag of the Republic of the Congo. **28 in²**

12. **GARDENING** Liam is preparing a 78 square foot plot for a garden. The plot will be in the shape of a parallelogram that has a height of 6 feet. What will be the length of the base of the parallelogram? Explain your reasoning.

13 ft; since area = base × height, find the base by dividing: $78 \div 6 = 13$.
